Thank you.

Spills and mitigating—taking me back to my good old OPA days....Have “fun” with that, if you can.

I hate to ask because I know you are very busy, but, could you share the email(s) that was/were sent to you from Maria regarding the TA email (if there was one?)- I’d like to get it to Stacy.

So, per Maria’s directive, no travel. At all? (Or at least until you are back?)- I just need to let my COE colleagues know.

Thank you, be safe, and WOW- pretty nasty situation you have on your hands over there. (And here too, LOL)

Tami,

My sincere apology. I was called up to work on the Gold King Mine spill yesterday. So I am now in Santa Fe with NMED coordinating and planning mitigation for the spill. I am not sure when I will be back but upon my return I would welcome an update. Thanks and have a great day.

Hello David,

On Thursday of last week (8/6/15), at approximately 4 PM, you and I spoke in regard to the Mr. Cusack enforcement case, and specifically the site inspection. The email regarding the TAs (mostly no-cost) that I would like to submit (Attachment 1 -identifies the circumstances/rationale /justification. There are also attachments within that email for other non-enforcement related but equally important (high priority, in my opinion as staff) travel commitments. You had mentioned on Thursday that perhaps you would like a discussion to bring you up to date. Would you like for me to arrange for that to happen, potentially today? I believe all parties with the exception of Tom, are present.

Personal Matters/Ex. 6 So, if missing the training is a concern, I believe I can easily resolve it to no cost to the Agency.

Thank you and Regards-
